

Sustainability Report

2021 - Sigma Quality & Compliance announce new name: Aptio Group

After 4 years of fantastic growth, we have decided to take the next step to further develop our consulting company. To grow at the desired pace, with expanded services and greater international presence, we have decided to rename ourself from Sigma Quality & Compliance and form Aptio Group, a consulting company that focus on effective solutions tailored to customers' challenges and needs.

In 2017, the consulting company Sigma Quality & Compliance was formed with Sigma IT and Sigma Industry as parent company in Sweden and Denmark. When Danir more was restructured, Sigma IT and Sigma Industry transferred their holdings in Sigma Quality & Compliance directly to Danir. The purpose of this change of ownership was, among other things, to create space for new concepts, services and markets, and thus even greater growth.

In 2021, with headquarters in Hilleröd, Denmark. Gothenburg, Sweden as well as Malmö, Sweden, the companies plan to continue its strong growth in the coming years. Within 5 years, group CEO Ola Ejnarsson aims to multiply the company through sustainable establishments in new markets and with new service areas.

Aptio Group has since the start been a strategic partner for several companies in quality-related services. This is now strengthened with new far-sighted and innovative concepts and alliances in quality, compliance, and efficiency.

“At Aptio Group, we continue to build a strong culture where everyone's participation is very close to our heart. It is part of the employment to be involved not only in all our deliveries but also in the company's development and activities for a more sustainable business. We will continue to be a responsible company that works for a better future, both for our customers and for our staff”, concludes Ola Ejnarsson and his Danish CEO Dan Juncker.

Both Aptio Group Aps and Aptio Group AB is part of Danir AB. Danir is a Swedish, privately owned holding company with a long-term strategy to run the business without exit plans. In total, the Danir Group's sales in 2020 amounted to Euro 650 million with 8,000 employees in 16 countries.

The majority of Aptio Group is owned by Danir, and the rest is owned by management.

Change work for the future

The change of our name does not change our ambitions. We firmly believe that it has strengthened us by being able to create our own reputation.

We constantly strive to be excellent in all matter. We continuously improve, innovate empower, inspire and lead change. For our customers, employees and stakeholders.

To ensure that we achieve our long-term goals, we are developing a management system according to ISO 9001:2015 and following parts of ISO 26000 as a guide to control our processes and working methods. This is something we are very proud of. The steering model aims at an increased customer focus, better efficiency, open corporate culture and a great commitment. The focus is, among other things, to streamline our cross- functional collaborations for our offices in Gothenburg, Malmö and Hilleröd.

In the coming years we plan to integrate the governance model with our vision, strategies and code of conduct in a concept to become a natural part of daily work and our way of working. We continuously focus on increasing clarity on objectives and guidelines. The goal is to get the maximum effect of everyone's effort.

Customer satisfaction

At Aptio Group we recognize the importance of customer satisfaction. We know, that our customer's loyalty arises from their satisfaction with our work. Their loyalty is the single most important factor in our company's growth and profitability.

We have an ongoing goal to always strive to increase our customer satisfaction and make sure we have a high and consistent level of service and customer benefits. To ensure that our services are always of high quality, we measure satisfaction through ongoing communication, feedback and dialog with our customers.

Through implementation of our business strategy, we aim to create long-term stakeholder value.

That's why corporate sustainability are important to us.

Organization and sustainability work

Aptio Group has set up a local sustainability strategy based on an internal network of Green Ambassadors.

Our network of Green Ambassadors monitor environmental aspects, social responsibility and provide an extended arm to management, board and owners. Our Green Ambassadors also initiate team activities that both unite employees' and educate in how to contribute to a more sustainable world. The aim is to create greater environmental/social awareness among our employees and a space for knowledge exchange and development of the sustainability initiatives.

They transform strategy into direct activities.

Tools to achieve our goals

To ensure we meet our goals, we have implemented tools to work towards the 2030 Agenda for Sustainable Development that includes 17 Sustainable Development Goals (SDG).

Green Ambassadors
Our Ambassadors monitor environmental aspects, social responsibility and provide an extended arm to management, board and owners.

Social responsibility

In today's time, urbanization, globalization and digitalization are examples of some of the greatest social challenges. That is why, our employees are our most important resource. Here at Aptio Group we strive to be one of the most attractive employers in our industry and size.

Everything we do starts with our employees and their experience of us both as an organization and as an employer. We want to create a creative, dynamic and innovative workplace where our existing and future employees thrive, feel good and develop. We believe, in empowering our employees and providing the tools and trust needed to succeed. The mutual respect we show each other, our clients' as well as our uncompromised quality is what enables us to create novel and differentiation solutions.

That is why we always work to create and improve the conditions at Aptio Group, so we continue to be acknowledged as a healthy, attractive, inclusive and sustainable workplace.

Competence development and human resources care

Aptio Group's business concept and operations are based on the high competence of each individual employee. At Aptio Group, we know the importance of our employees, that is why we make it the utmost priority to offer continuous, planned and effective training, courses and competence development to all personnel within the company.

Through ongoing communication, feedback and dialog we ensure our employees are content, satisfied and their needs are met. Furthermore, the manager, annually, invites each employee to participate in a dialog about their development.

Our human resource plan is monitored continuously and adjusted if necessary.

Human resources demographics

Aptio Group is proud to be considered as a workplace characterized by openness and honesty. A place where everyone is accepted regardless of gender, age, ethnic or social background, disabilities or other factors unrelated to competence or commitment. We believe that diversity benefits our competitiveness and contributes to a better outcome.

We truly believe that we can create more when uniting everyone.

Our Policy Statement

At Aptio Group, we strive to make a difference for our employees and our customers. We always work to be at the forefront of knowledge as well as behavior.

With passion, all our employees share their knowledge and experiences with customers and colleagues. They help and support each other in their respective assignments, so customers always have direct or indirect access to diverse expertise and experience. The mutual respect we show each other, our clients' as well as our uncompromised quality is what enables us to create novel and differentiation solutions.

We take pride in having an entire organization that supports the necessary skills and guidance needed to succeed. We always strive to be excellent in all matters, and we take great responsibility for delivering the best possible solution, whether it is for a customer or for a colleague.

Initiative aptio group 2021

In June 2020, we accepted the challenge to walk 200 km as a joint movement called “Dream Challenge”.

Dream Challenge 2021 is a virtual charity event that took us through 15 countries on the way to South Africa.

[Empowering young people | Star for Life](#)

Charity walk to Prague

During the spring 2020, the Gothenburg Office, of 3 employees, has walked together from Gothenburg to Prague. That is 999 km.

We gather our joint steps in a matrix and upon arrival in Prague we donate a penny to charitable causes to Barncancerfonden.
